

Lockdown activities

Tuesday 6th April – The Easter activities begin!

Prepare for a lockdown Easter with these hand made baskets made form recyclable plastic bottles.

You need

An old plastic bottle, for example a fizzy drink or milk bottle.

Googly eyes or a vivid if you want to draw them on

Pipe cleaner for the handle

Shredded or scrunched tissue paper for the inside.

Tape to cover the edge of the bottle

Coloured card for wings and nose if your making a chicken.

Coloured card for the ears, pipe cleaners, cotton buds and small pom pom if your making the rabbit.

If there is something you don't have try to improvise, what could you use instead?

To make

Ask an adult to cut down the bottle then cover the rim with tape to smooth it out.

Ask an adult to pierce two holes near the top so you can thread your pipe cleaner through to make the handle. You might need to tie a few together to make it long enough.

Decorate as you wish, fill with paper to keep your eggs safe and wait for the Easter bunny!

LEGO challenge

Have a go, it's harder than it looks! Can you email us a picture of your creations so we can share with others?

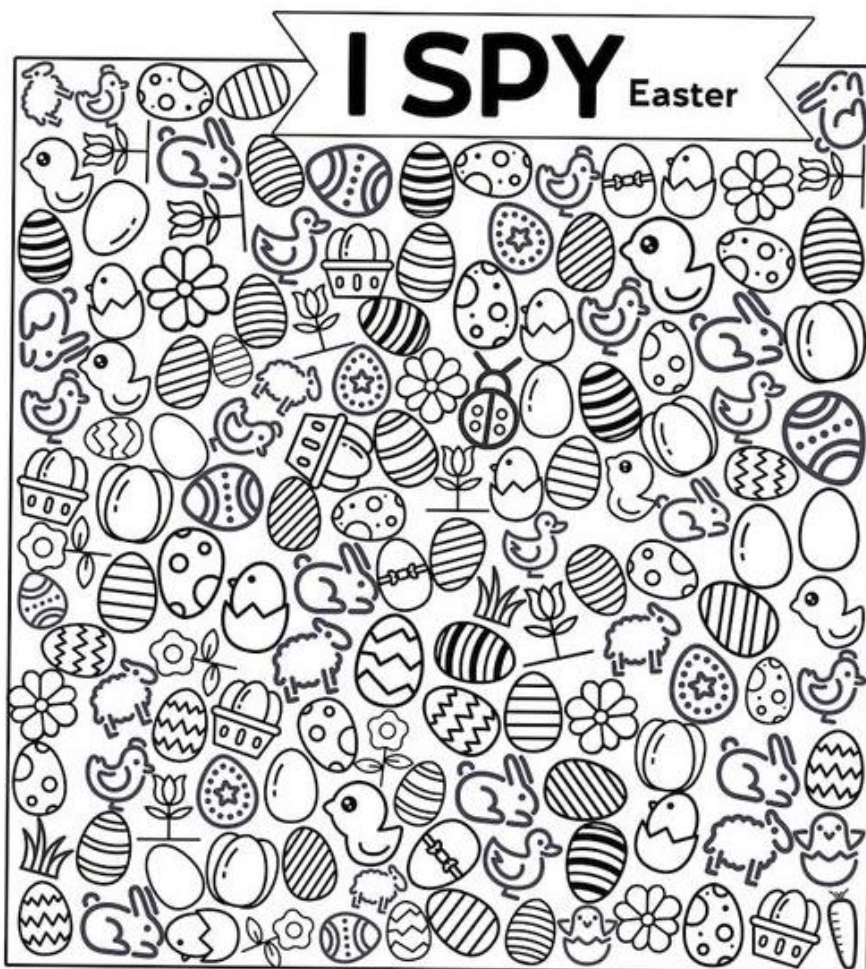

LEGO EASTER EGGS Building Challenge

Or can you decorate an egg with paint, vivid's or coloured pencils? Try not use felt pens as they will smudge. You may want to use hard boiled eggs?

Fancy an I spy game to keep you busy?
